RICHMOND MILLS.—The Petersburg Ex-

press, of a late date, says: The famous Gallego Mills in Richmond, which were destroyed by the great fire in April of last year, have been for some time in process of reconstruction. They were regarded as the most extensive flour mills in America, and as they are being erected on a more magnificent scale than ever, they will lose none of their prestige. Though they have been burned to the ground several times, and removed, indeed, from the original site, we hope it may be many years before a similar disaster agains befalls them.

The flour mills of Richmond have long been the pride and boast of that city. Be ing the mart of one of the finest wheat growing regions in America, and the flour of unrivalled quality, they probably contributed more to its prosperity than all the other manufactories combined. We trust they may long maintain their pre-eminence.

We have a pleasant recollection of several of the Richmond millers of olden time .-They were a princely set of men-the Chevallies, the Rutherfords, the Haxalls, and the Cunninghams. They dealt liberally with the farmers, who regularly in July and August of every year, went to town to make contracts for the delivery of their crops. -This was always done in person, or through a neighbor, and not, as since, through the intervention of commission merchants. The change may have been for greater convenience, but the millers were then personally acquainted with all the leading farmers, who, in turn, were always pleased to deal with gentlemen of so much liberality.

ORIGIN OF THE WORD FENIAN .- As the origin of this word has excited some attention, we give the following letter from Mr. Halpin, in answer to one from Mr. Smith to Mr. James Stephens, inquiring concerning the origin:

METROPOLITAN HOTEL, N. Y., May 20th, 1866.

H. H. SMITH, Esq.: My Dear Sir: I am instructed by Mr. Stephens to acknowledge the receipt of your letter, dated Cincinnati, 18th instant, inquiring as to the origin of the term Fenian. Mr. Stephens desires me to express his as-

tonishment that you should fail to be satisfied on that subject by intelligent Irishmen goods at of Cincinnati. He is aware that many erroneous statements have gone to the public in relation to the origin of the term Fenian, and approves your laudable desire to be informed thereon.

Every student of Irish history will recollect that a chieftain existed in Ireland, just anterior to the Christian era, named Fion McCuol. This personage was the commandant of the Feonin Erin or Irish militia at a period when Ireland was a nation, and her people protected themselves against the encroachments of all invaders.

As the present organization is instituted for the same purpose, after the foreign robber shall have been expelled, the name of Fenian was adopted for the branch of the last Thursday in June. C. R. THOMAS, byotherhood in the United States. Trusting, sir, this explanation may be satisfactory, I subscribe myself,

Your obedient servant. WM. G. HALPIN.

London.—The London Times states that on the 8th of April, 1866, the population of the metropolis was estimated by the English Registrar General at 3,054,940. This is about one-sixth of the population of England and Wales, as reported at the last census, in 1861. The various parliamentary boroughs into which London is divided, have an aggregate representation of eighteen members in the English House

NOPY RIGHT SECURED. Era, combining the Julian and Gregorian modes of reckoning time, by James Rumley, of N. C." The subscriber having copy-rigated this most valuable of all the "Calendars" ever before offered to the public, will be prepared in a few days to supply the demand for them to any extent. of the Christian Era could be accurately, and at the same time readily, found. These attempts have heretofore signally failed because the anthors have sought to condense too much, and because they were really not conversant with the subject of which they treated, and which they value endeavored to clucidate.

vainly endeavored to elucidate. I claim for the Calendar, now presented, perfect simplicity of arrangement, combined with the most infallible accuracy. The plan is so simple nat any one who can use an ordinary Almanae, or Counting House Calendar, cannot fail to see clearly into the working of this. Time past, present or future can be immediately found. Its accuracy will bear the test of the most rigid serutiny. I invite criticisms, and confiden'ly appeal to an enlightened public judgment for a frank expression of opinion as to its merits.

To supply a want long felt, the author has ap-pended to the Calendar, under the head of "Exlanatory Remarks," a succinct, but most valua-le history of the Julian Calendar from the time of Julius Casar, and of the astronomical causes which led to the enange made by Pope Gregory XIII, in 1582. These notes alone are worth the price of the Calendar. If any object to the space the Calendar occupies the objection is answered by the reply that any

attempt at condensation would be a sacrifice of simplicity, the fatal rock on which every previous ttempt has been stranded. or it may merely keep you listless, depressed and good for nothing.— But you cannot have health while your blood is impure. AYER'S SAR-SAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence

it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or Kings' Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer, or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Venerial Diseases, Liver Complaints, and Heart Discuses. Try AVER'S SARSAPARILLA, and see for yourself the surprising activity with which it cleanses the blood and cures these

During lete years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and it tend to supply such a remedy as shall rescue the name from the load of obloguy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. We can only assure the sick, that we offer them the best alterative which we know how to produce, and we have reason to believe it is by far the most effectual purifier of the blood yet discovered by any body. AYER'S CHERRY PECTORAL is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hearseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to

ecount the evidence of its virtues. The world knows them.
